

“My sister’s CarePages website kept us all connected, and when we didn’t know what to do or say, there was a resource at CarePages.com to help us.”

– *Mary*

Connect. Share. Support.

Connect with loved ones before, during and after any health event. Share the news of your child's birth. Find support to help manage your condition.

Use CarePages for any type of health event, including:

- Inpatient Admissions
- Outpatient Services
- Pregnancy and Birth
- And more

“It cheered me up so much to know I was in others’ thoughts and prayers. Friends, both past and present, all came together to show me their support.”

– Jean

Through free, personalized CarePages websites, members can relate their stories, post photos, and update friends and family instantly. In turn, your loved ones can send messages of love and encouragement. Our mission is simple: to ensure that no one goes through a health challenge alone.

**To create a CarePages website,
visit UCLAHealth.org/CarePages and begin.
Get started today!**

CarePages website features:

- 1 A Personal Profile**
Share a summary of your story
- 2 The Opportunity to Send Updates**
Update everyone at once about your progress
- 3 A Place to Post Photos**
Your personal photo gallery can be shared with loved ones
- 4 A Private Email Address**
Email alerts allow you to invite others to receive your latest updates
- 5 A Way to Compliment Staff**
With a CareCompliment, you can recognize hospital staff members who go above and beyond
