UCLA Health was present at Arab Health, the largest healthcare event in the MENA region, held in Dubai from Jan 28th to 31st, 2019.

This year, Arab Health welcomed over 4,150 exhibiting companies showcasing their latest healthcare technology, products and services.

Over 84,000 healthcare and trade professionals representing more than 160 countries were in attendance, to connect and network with medical product manufacturers, learn about innovative medical technologies as well as participate in workshops and interactive learning sessions.

Clinicians had the opportunity to get updated with the latest trends in medicine and earn CME points. As part of this program, Dr. Ali Nsair, Director of the Heart Transplantation and Mechanical Circulatory Support Program at UCLA and member of the Interventional and Structural Program at UCLA presented at the 3rd Emergency Medicine Conference on the Mechanical Circulatory Support for Management of Acute Cardiogenic Shock.

In addition, as an invited guest speaker of the 15th Middle East Orthopaedic Conference, Dr. Nick Shamie, Chief of Orthopaedic Spine Surgery and Professor of Orthopedic Surgery and Neurosurgery at UCLA School of Medicine, shared his expertise on cervical disc lesions and provided the very latest updates and insights into cutting-edge procedures, techniques and skills.
