Course Fees
Physicians: $275
Nurses, Sonographers: $175
Trainees: $125

Location
UCLA Meyer & Renee Luskin Conference Center
425 Westwood Plaza
Los Angeles, CA 90095
(855) 522-8252

Directions and Parking
From the 405 freeway, exit Wilshire Blvd., East toward Westwood. Turn left on Westwood Blvd., travel past Charles E. Young Dr. South and turn left on Structure 8 driveway. Drive up the ramp to the rooftop level to park. Parking attendants will be selling permits from 6:30 AM - 8:30 AM. If you arrive outside of this time frame, please report to the parking kiosk on Westwood Plaza to pay for your parking permit. Participants are to pay their own parking charges at a rate of $12 per vehicle. The Luskin conference center is located at Westwood Plaza and Strathmore Place.

Luskin Conference Center Room Block
UCLA has arranged a room block at the Luskin Conference Center for our guests. A tax-exempt room rate of $219.00 will be offered. To reserve a room, please contact the Luskin Conference Center, after June 1st and indicate you will be attending the UCLA Fetal Echocardiography program. Once the room block is filled, room rates will be subject to availability.

Refunds
Cancellations must be received in writing by Monday, September 12, 2016 and will be subject to a $50 processing fee. No refunds will be granted after that date. If, for any reason, the course must be cancelled, discontinued, or rescheduled by the Office of Continuing Medical Education, a full refund will be provided.

Accreditation
The Office of Continuing Medical Education, David Geffen School of Medicine at UCLA is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Office of Continuing Medical Education, David Geffen School of Medicine at UCLA, designates this live activity for a maximum of 7 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Enrollment
Online
Go to www.cme.ucla.edu/courses and click on Sixth Fetal Echocardiography Symposium at UCLA. You may use your MasterCard, Visa, American Express or Discover card to register.

By Mail
Use the form attached. Mail to the UCLA Office of Continuing Medical Education, David Geffen School of Medicine at UCLA, Fetal Echocardiography 2016, 10920 Wilshire Blvd., Suite 1060, Los Angeles, CA 90024-6512

By Fax
Send the completed enrollment form with credit card information and authorizing signature.
Fax to : (310) 794-2624

By Phone
Use your MasterCard, VISA, Discover, or American Express card. Call (310) 794-2620

Disclosure Statement
The FDA has issued a concept paper that classifies commercial support of scientific and educational programs as promotional unless it can be affirmed that the program is “truly independent” and free of commercial influence. In addition to independence, the FDA requires that non-promotional, commercially supported education be objective, balanced and scientifically rigorous. The policy further states that all potential conflicts of interest of the CME staff and faculty be fully disclosed to the program’s participants. In addition, Accreditation Council for Continuing Medical Education policy now mandates that the provider adequately manage all identified potential conflicts of interest prior to the program. UCLA fully endorses the letter and spirit of these concepts.

This service is not affiliated with or endorsed by Inteleos. ARDMS is a Council of Inteleos, Inc.

Course Description

The Sixth Annual Fetal Echocardiography Symposium at UCLA: Practical Essentials of Fetal Cardiac Screening brings together an internationally recognized, multidisciplinary faculty to present a full-day of state-of-the-art presentations, live demonstrations, and discussions, all with a renewed and explicit focus on fetal cardiac screening. To accommodate increased demand, this sixth symposium will be the first in the series to be presented at the new Luskin Conference Center (http://luskinconferencecenter.ucla.edu/) in the middle of the UCLA campus. The symposium will sharpen its focus to provide a full-day dedicated to real-life tips and pearls specifically for those physicians and sonographers who perform or interpret fetal cardiac screening examinations. Presentations will review current guidelines, discuss how to optimize the image and minimize false positives/false negatives, present how-to tutorials on how to scan and interpret the four-chamber view/right and left ventricular outflow tracts/three-vessel trachea view, review how to recognize and interpret major forms of heart disease (including special clues for the detection of ventricular septal defects, aortic/pulmonary stenosis, transposition of the great arteries, tetralogy of Fallot, coarctation of the aorta, TAPVR and others), and share how to evaluate subtle findings such as pericardial effusion, left ventricular genetic foci, and right/left heart disproportion.

If you are looking for statistics or reviews of the literature, this course is not for you. But if you are looking to improve your ability to scan or to interpret scans of the fetal heart, this highly popular annual symposium may be among the most valuable courses you will have ever attended.

Target Audience

The Sixth Annual Fetal Echocardiography Symposium at UCLA: Practical Essentials of Fetal Cardiac Screening is targeted towards all healthcare professionals seeking to improve their ability to scan and evaluate the fetal heart. The symposium is aimed specifically towards obstetric/cardiac sonographers, physicians (maternal-fetal medicine subspecialists, obstetricians, radiologists, and pediatric cardiologists), sonographers/physicians in training, and also welcomes nurses and other health professionals involved with the management of pregnancies complicated by fetal heart disease.

Learning Objectives

At the conclusion of this intensive, one-day symposium, participants will be able to:

- Identify current guidelines for fetal cardiac screening
- Recognize the basic approach to screening low risk pregnancies for fetal heart disease
- Identify how to optimize image quality and angle of acquisition
- Acquire and interpret clips of the four-chamber view, outflow tracts, and three-vessel views
- Evaluate and diagnose fetal arrhythmias
- Utilize novel tips and pearls of fetal cardiac screening to apply in daily practice
Course Director

Mark Sklansky, MD  
Chief, Division of Pediatric Cardiology  
James H. Nicholson Professor of Clinical Pediatrics  
Co-Director, Fetal Cardiology Program  
Medical Director, UCLA Children’s Heart Center  
Mattel Children’s Hospital UCLA  
David Geffen School of Medicine at UCLA

Course Co-Director

Greggory DeVore, MD, FACOG, FAIUM  
Clinical Professor, Department of Obstetrics and Gynecology  
David Geffen School of Medicine at UCLA  
Director, Fetal Diagnostic Centers  
Pasadena, Tarzana, Lancaster, California

UCLA Faculty

Gary M. Satou, MD, FASE  
Clinical Professor of Pediatrics  
Director, Pediatric Echocardiography  
Co-Director, Fetal Cardiology Program  
David Geffen School of Medicine at UCLA

Guest Faculty

Tracy Anton, BS, RDMS, RDCS  
Ultrasound Practitioner  
UCSD Fetal Care and Genetics Center  
University of California, San Diego  
San Diego, California

Wesley Lee, MD  
Professor of Obstetrics/Gynecology  
Division Director, Women’s and Fetal Imaging  
Baylor College of Medicine  
Co-Director, Texas Children’s Fetal Center  
Texas Children’s Hospital Pavilion for Women  
Houston, Texas

Hopeful Hearts
