

How to check if your computer is encrypted with PGP Desktop

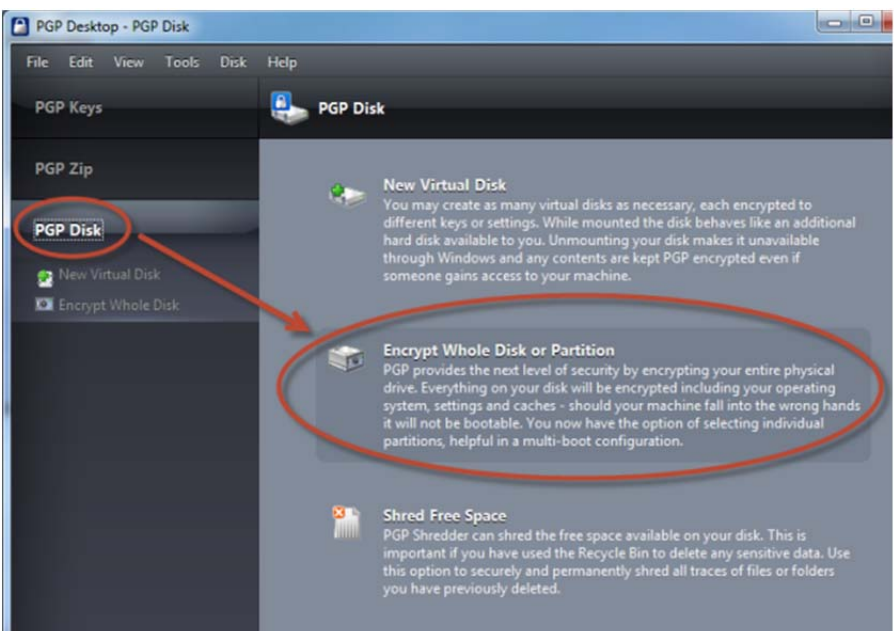

Locate PGP Desktop

Click on the **Start Menu** button at the bottom-left corner of your screen and search for **pgp desk**.

Click on the search result to **open**.

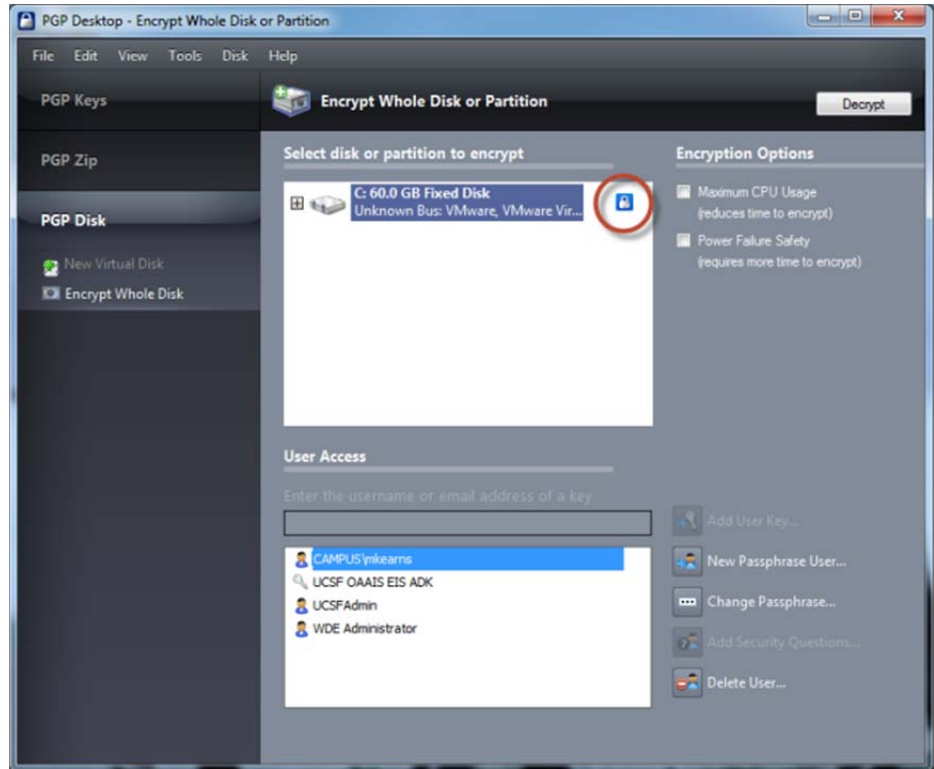

On the left pane, choose, select **PGP Disk** and then **Encrypt Whole Disk**.

Confirm Computer is Encrypted

Under **Select disk or partition to encrypt**, multiple drives may be listed.

Viewing the **C: drive**, and if you see a silver padlock icon inside a blue box, your computer is encrypted.
