

# How to check if your computer is encrypted with FileVault 2

## Locate FileVault

Click on the **Apple** icon at the upper-left corner of your screen and select **System Preferences**.

Go to **Security & Privacy**.

## Confirm Computer is Encrypted

Click on **FileVault**.

If you see **FileVault is turned on for the disk "Macintosh HD"**, your computer is encrypted.

Please note: the name of your hard drive may vary from the "Macintosh HD" example.
