Webinars Presents:

**Aging with Congenitally Corrected Transposition of the Great Arteries (ccTGA)**

Wednesday, 6/28/2017, 7 p.m. – 8 p.m. EDT

Presenter: George Lui, MD

**About the Webinar**

Are you an adult with congenitally corrected transposition of the great arteries or L-transposition of the great arteries? Have you undergone cardiac surgery with an anatomic repair (double switch procedure)? Have you undergone cardiac surgery with a subpulmonic left ventricular conduit to the pulmonary artery? If so, this webinar will describe what it means and what to expect in the future including exercise recommendations and pregnancy. You don't want to miss this webinar. Sign up today.

**About the Presenter**

George Lui, MD, is the Medical Director of the Adult Congenital Heart Program at Stanford, a combined program between Lucile Packard Children's Hospital and Stanford Hospital & Clinics. Dr. Lui is also appointed Clinical Associate Professor of Cardiovascular Medicine and Pediatric Cardiology at Stanford University School of Medicine. Dr. Lui is an expert in the field of adult congenital heart disease and has gained national recognition for both his clinical work and research. His research interests include management of adults with congenital heart disease, pregnancy and congenital heart disease, adolescent transition to adult care, and echocardiography. Dr. Lui currently serves on the ACHA Medical Advisory Board and is a Fellow of the American College of Cardiology and a member of the American Heart Association and International Society for Adult Congenital Heart Disease.

**About the Adult Congenital Heart Association**

The Adult Congenital Heart Association (ACHA) is a national not-for-profit organization dedicated to improving the quality of life and extending the lives of adults with congenital heart disease (CHD). ACHA serves and supports the more than one million adults with CHD, their families and the medical community—working with them to address the unmet needs of the long-term survivors of congenital heart defects through education, outreach, advocacy, and promotion of ACHD research. For more information about ACHA, contact (888) 921-ACHA or visit www.achaheart.org.

This webinar is made possible in part by unrestricted educational grants from Actelion Pharmaceuticals US, Gilead Sciences, Inc., and St. Jude Medical Foundation.
