

Dear Colleagues,

We are pleased to share that UCLA Health has been recognized by *Forbes* magazine as one of “America’s Best Large Employers,” ranking No. 7 in the health care sector and No. 111 across 25 industries nationwide.

The ranking is based on an independent survey of more than 50,000 U.S. employees working for companies of at least 5,000 employees (UCLA Health employs approximately 20,000 staff and faculty members across Southern California). In addition to evaluating working conditions, the survey asked employees how likely they were to recommend their employer to friends and family. Employees were also asked to rate comparable health care organizations, which factored into the overall evaluation process.

The *Forbes* ranking highlights the pride that our employees have in UCLA Health, a place that is defined by their incredible talent, dedication and teamwork. Thanks to these attributes, UCLA Health is consistently recognized as an employer of choice. In January, *Forbes* ranked UCLA Health as one of the [Best Employers for Diversity](#) – placing it in the top-fifth percentile nationwide.
