

Zeus for Health Care Workers

Your Work Is Critical. Your Spirit Is Admirable.

Zeus can help with fully furnished homes, equipped with the essentials. Booking is easy, and the interactive online tours of our homes show you exactly what you'll get.

Whether you need to isolate from your family, quarantine after testing positive, or find a home near a hospital, we're here for you. Find us in the San Francisco Bay Area, Los Angeles, Seattle, New York City, New Jersey, Boston, and Washington D.C.

Taking Your Health Seriously

As always, Zeus maintains our elite cleaning standards with an intensive 250-point inspection of every home. Our residents stay with us an average of 3 months, meaning our units host fewer people than hotels or other housing providers do.

Easier—and More Affordable—Than Ever

Choose single-family homes and brand-new units, available immediately, with flexible leases for changing needs.

Our account executives are committed to making your team's plans easier, no matter how unexpected, last-minute, or challenging. We appreciate the work that you do, now more than ever.
