UCLA Spinal Cord Injury Symposium

March 3, 2018
Red Bull Media House
Santa Monica, CA

**UCLA Spinal Cord Injury Symposium
March 3, 2018**

**Experimental implant shows promise
after spinal cord injury**

**UCLA neurosurgeons use cutting-edge
navigation tools to improve spine
surgery**

**UCLA Spinal Deformity Program allows
patients to be active again pain**

Download the UCLA Neurosurgery App

The UCLA Department of Neurosurgery app serves as a comprehensive resource for preparation for neurosurgical procedures, department contact information, and local and onsite hospital amenities. [Download and learn more »](#)

Faculty Spotlight

Daniel C. Lu, MD, PhD

Dr. Daniel Lu, Associate Professor and Vice Chair of Research leads a team of researchers to investigate novel treatment for spinal cord injury to restore hand function.

Dr. Lu's clinical expertise involves minimally invasive techniques in the surgical management of degenerative, traumatic, and neoplastic spinal disorders. As the Director of the [Neuroplasticity and Repair Laboratory](#) and the UCLA Neuromotor Recovery and Rehabilitation Center, [research team](#) efforts are focused on modulating the neuronal circuitry and networks in the treatment of central nervous system disorders with the ultimate goal of restoring lost function. [Read more »](#)

UCLA Spine Program

The UCLA Spine Center is unique among academic institutions in the way it brings together neurosurgery and orthopaedics, two traditionally separate practices, into a cohesive program to treat patients with degenerative and non-degenerative spinal conditions.

The UCLA Spine Center, which includes neurosurgeons, orthopaedic surgeons and nonoperative specialists in physical medicine and rehabilitation is located just several blocks away from the UCLA Medical Center, Santa Monica. Neurosurgeon Langston Holly, MD., co-director of the Spine Center with orthopaedic surgeon Nick Shamie, MD., discusses how the facility benefits patients with clinical care and novel research programs. UCLA MD Chat Webinars

View the UCLA Department of Neurosurgery's collection of webinars on demand.

Topics include:

- Treatments in Spinal Surgery
- Brain Aneurysms
- Sports Concussions in Youth
- Chiari Malformations in Children
- Hemispherectomy
- Epilepsy
