

Scope of Regulation

Excerpt from Business and Professions Code

Division 2, Chapter 6, Article 2

§ 2725. Legislative intent; Practice of nursing defined

(a) In amending this section at the 1973–74 session, the Legislature recognizes that nursing is a dynamic field, the practice of which is continually evolving to include more sophisticated patient care activities. It is the intent of the Legislature in amending this section at the 1973–74 session to provide clear legal authority for functions and procedures that have common acceptance and usage. It is the legislative intent also to recognize the existence of overlapping functions between physicians and registered nurses and to permit additional sharing of functions within organized health care systems that provide for collaboration between physicians and registered nurses. These organized health care systems include, but are not limited to, health facilities licensed pursuant to Chapter 2 (commencing with Section 1250) of Division 2 of the Health and Safety Code, clinics, home health agencies, physicians' offices, and public or community health services.

(b) The practice of nursing within the meaning of this chapter means those functions, including basic health care, that help people cope with difficulties in daily living that are associated with their actual or potential health or illness problems or the treatment thereof, and that require a substantial amount of scientific knowledge or technical skill, including all of the following:

(1) Direct and indirect patient care services that ensure the safety, comfort, personal hygiene, and protection of patients; and the performance of disease prevention and restorative measures.

(2) Direct and indirect patient care services, including, but not limited to, the administration of medications and therapeutic agents, necessary to implement a treatment, disease prevention, or rehabilitative regimen ordered by and within the scope of licensure of a physician, dentist, podiatrist, or clinical psychologist, as defined by Section 1316.5 of the Health and Safety Code.

(3) The performance of skin tests, immunization techniques, and the withdrawal of human blood from veins and arteries.

(4) Observation of signs and symptoms of illness, reactions to treatment, general behavior, or general physical condition, and (A) determination of whether the signs, symptoms, reactions, behavior, or general appearance exhibit abnormal characteristics, and (B) implementation, based on observed abnormalities, of appropriate reporting, or referral, or standardized procedures, or changes in treatment regimen in accordance with standardized procedures, or the initiation of emergency procedures.

(c) "Standardized procedures," as used in this section, means either of the following:

(1) Policies and protocols developed by a health facility licensed pursuant to Chapter 2 (commencing with Section 1250) of Division 2 of the Health and Safety Code through collaboration among administrators and health professionals including physicians and nurses.

(2) Policies and protocols developed through collaboration among administrators and health professionals, including physicians and nurses, by an organized health care system which is not a health facility licensed pursuant to Chapter 2 (commencing with Section 1250) of Division 2 of the Health and Safety Code.

The policies and protocols shall be subject to any guidelines for standardized procedures that the Division of Licensing of the Medical Board of California and the Board of Registered Nursing may jointly promulgate. If promulgated, the guidelines shall be administered by the Board of Registered Nursing.

(d) Nothing in this section shall be construed to require approval of standardized procedures by the Division of Licensing of the Medical Board of California, or by the Board of Registered Nursing.

(e) No state agency other than the board may define or interpret the practice of nursing for those licensed pursuant to the provisions of this chapter, or develop standardized procedures or protocols pursuant to this chapter, unless so authorized by

this chapter, or specifically required under state or federal statute. "State agency" includes every state office, officer, department, division, bureau, board, authority, and commission.

§ 2725.1. Dispensation of drugs or devices by registered nurse

Notwithstanding any other provision of law, a registered nurse may dispense drugs or devices upon an order by a licensed physician and surgeon if the nurse is functioning within a licensed clinic as defined in paragraphs (1) and (2) of subdivision (a) of Section 1204 of, or within a clinic as defined in subdivision (b) or (c) of Section 1206, of the Health and Safety Code.

No clinic shall employ a registered nurse to perform dispensing duties exclusively. No registered nurse shall dispense drugs in a pharmacy, keep a pharmacy, open shop, or drugstore for the retailing of drugs or poisons. No registered nurse shall compound drugs. Dispensing of drugs by a registered nurse, except a certified nurse-midwife who functions pursuant to a standardized procedure or protocol described in Section 2746.51 or a nurse practitioner who functions pursuant to a standardized procedure described in Section 2836.1, or protocol, shall not include substances included in the California Uniform Controlled Substances Act (Division 10 (commencing with Section 11000) of the Health and Safety Code). Nothing in this section shall exempt a clinic from the provisions of Article 13 (commencing with Section 4180) of Chapter 9.

§ 2725.3. Functions performed by unlicensed personnel

(a) A health facility licensed pursuant to subdivision (a), (b), or (f), of Section 1250 of the Health and Safety Code shall not assign unlicensed personnel to perform nursing functions in lieu of a registered nurse and may not allow unlicensed personnel to perform functions under the direct clinical supervision of a registered nurse that require a substantial amount of scientific knowledge and technical skills, including, but not limited to, any of the following:

- (1) Administration of medication.
- (2) Venipuncture or intravenous therapy.
- (3) Parenteral or tube feedings.
- (4) Invasive procedures including inserting nasogastric tubes, inserting catheters, or tracheal suctioning.
- (5) Assessment of patient condition.
- (6) Educating patients and their families concerning the patient's health care problems, including postdischarge care.
- (7) Moderate complexity laboratory tests.

(b) This section shall not preclude any person from performing any act or function that he or she is authorized to perform pursuant to Division 2 (commencing with Section 500) or pursuant to existing statute or regulation as of July 1, 1999.

§ 2725.5. "Advanced practice registered nurse" defined

"Advanced practice registered nurse" means those licensed registered nurses who have met the requirements of Article 2.5 (commencing with Section 2746), Article 7 (commencing with Section 2825), Article 8 (commencing with Section 2834), or Article 9 (commencing with Section 2838).

§ 2726. Unauthorized practices

Except as otherwise provided herein, this chapter confers no authority to practice medicine or surgery.

§ 2727. Practices not prohibited

This chapter does not prohibit:

- (a) Gratuitous nursing of the sick by friends or members of the family.
- (b) Incidental care of the sick by domestic servants or by persons primarily employed as housekeepers as long as they do not practice nursing within the meaning of this chapter.
- (c) Domestic administration of family remedies by any person.
- (d) Nursing services in case of an emergency. "Emergency," as used in this subdivision includes an epidemic or public disaster.
- (e) The performance by any person of such duties as required in the physical care of a patient and/or carrying out medical orders prescribed by a licensed physician; provided, such person shall not in any way assume to practice as a professional, registered, graduate or trained nurse.

§ 2727.5. Liability for emergency care

A person licensed under this chapter who in good faith renders emergency care at the scene of an emergency which occurs outside both the place and the course of that person's employment shall not be liable for any civil damages as the result of acts or omissions by that person in rendering the emergency care.

This section shall not grant immunity from civil damages when the person is grossly negligent.

§ 2728. Services by attendants and psychiatric technicians; Supervised services of unlicensed graduates of accredited psychiatric technician training programs

If adequate medical and nursing supervision by a professional nurse or nurses is provided, nursing service may be given by attendants, psychiatric technicians, or psychiatric technician interim permittees in institutions under the jurisdiction of the State Department of Mental Health or the State Department of Developmental Services or subject to visitation by the State Department of Health Services or the Department of Corrections. Services so given by a psychiatric technician shall be limited to services which he or she is authorized to perform by his or her license as a psychiatric technician. Services so given by a psychiatric technician interim permittee shall be limited to skills included in his or her basic course of study and performed under the supervision of a licensed psychiatric technician or registered nurse.

The Directors of Mental Health, Developmental Services, and Health Services shall determine what shall constitute adequate medical and nursing supervision in any institution under the jurisdiction of the State Department of Mental Health or the State Department of Developmental Services or subject to visitation by the State Department of Health Services.

Notwithstanding any other provision of law, institutions under the jurisdiction of the State Department of Mental Health or the State Department of Developmental Services may utilize graduates of accredited psychiatric technician training programs who are not licensed psychiatric technicians or psychiatric technician interim permittees to perform skills included in their basic course of study when supervised by a licensed psychiatric technician or registered nurse, for a period not to exceed nine months.

§ 2728.5. Utilization of licensed psychiatric technicians and psychiatric technician interim permittees

Except for those provisions of law relating to directors of nursing services, nothing in this chapter or any other provision of law shall prevent the utilization of a licensed psychiatric technician or psychiatric technician interim permittee in performing services used in the care, treatment, and rehabilitation of mentally ill, emotionally disturbed, or developmentally disabled persons within the scope of practice for which he or she is licensed or authorized in facilities under the jurisdiction of the State Department of Mental Health or the State Department of Developmental Services or licensed by the State Department of Health Services, that he or she is licensed to perform as a psychiatric technician, or authorized to perform as a psychiatric technician interim permittee including any nursing services under Section 2728, in facilities under the jurisdiction of the State Department of Mental Health or the State Department of Developmental Services or subject to visitation by the State Department of Health Services.

§ 2729. Services by student nurses

Nursing services may be rendered by a student when these services are incidental to the course of study of one of the following:

- (a) A student enrolled in a board-approved prelicensure program or school of nursing.
- (b) A nurse licensed in another state or country taking a board-approved continuing education course or a postlicensure course.

§ 2730. Services by foreign nurses

If he does not represent or hold himself out as a professional nurse licensed to practice in this State and if he has an engagement, made in another State or country, requiring him to accompany and care for a patient temporarily residing in this State during the period of such engagement, a nurse legally qualified by another State or country may give nursing care to such patient in this State.

§ 2731. Nonprofit religious care

This chapter does not prohibit nursing or the care of the sick, with or without compensation or personal profit, when done by the adherents of and in connection with the practice of the religious tenets of any well recognized church or denomination, so long as they do not otherwise engage in the practice of nursing.

§ 2732. Licensure requirement; Use of "R.N."

No person shall engage in the practice of nursing, as defined in Section 2725, without holding a license which is in an active status issued under this chapter except as otherwise provided in this act.

Every licensee may be known as a registered nurse and may place the letters "R.N." after his name.

§ 2732.05. Verification of current R.N. status

Every employer of a registered nurse, and every person acting as an agent for such a nurse in obtaining employment, shall ascertain that such nurse is currently authorized to practice as a registered professional nurse within the provisions of this chapter. As used in this section, the term “agent” includes, but is not limited to, a nurses registry.

Examination by an employer or agent of evidence satisfactory to the board showing the nurse’s current authority to practice under this chapter, prior to employment, shall constitute a determination of authority to so practice.

Nothing in this section shall apply to a patient, or other person acting for a specific patient, who engages the services of a registered nurse to provide nursing care to a single patient.

§ 2732.1. Applications; Interim permits; Waiver of examination; Fees

(a) An applicant for license by examination shall submit a written application in the form prescribed by the board.

Upon approval of the application, the board may issue an interim permit authorizing the applicant to practice nursing pending the results of the first licensing examination following completion of his or her nursing course or for a maximum period of six months, whichever occurs first.

If the applicant passes the examination, the interim permit shall remain in effect until a regular renewable license is issued by the board. If the applicant fails the examination, the interim permit shall terminate upon notice thereof by first-class mail.

(b) The board upon written application may issue a license without examination to any applicant who is licensed or registered as a nurse in a state, district or territory of the United States or Canada having, in the opinion of the board, requirements for licensing or registration equal to or higher than those in California at the time the application is filed with the Board of Registered Nursing, if he or she has passed an examination for the license or registration that is, in the board’s opinion, comparable to the board’s examination, and if he or she meets all the other requirements set forth in Section 2736.

(c) Each application shall be accompanied by the fee prescribed by this chapter for the filing of an application for a regular renewable license.

The interim permit shall terminate upon notice thereof by first-class mail, if it is issued by mistake or if the application for permanent licensure is denied.

§ 2733. Issuance of temporary license where examination waived

(a) Upon approval of an application filed pursuant to subdivision (b) of Section 2732.1, and upon the payment of the fee prescribed by subdivision (k) of Section 2815, the board may issue a temporary license to practice professional nursing, and a temporary certificate to practice as a certified nurse midwife, certified nurse practitioner, certified public health nurse, certified clinical nurse specialist, or certified nurse anesthetist for a period of six months from the date of issuance.

A temporary license or temporary certificate shall terminate upon notice thereof by certified mail, return receipt requested, if it is issued by mistake or if the application for permanent licensure is denied.

(b) Upon written application, the board may reissue a temporary license or temporary certificate to any person who has applied for a regular renewable license pursuant to subdivision (b) of Section 2732.1 and who, in the judgment of the board has been excusably delayed in completing his or her application for or the minimum requirements for a regular renewable license, but the board may not reissue a temporary license or temporary certificate more than twice to any one person.

§ 2734. Inactive licenses

Upon application in writing to the board and payment of the biennial renewal fee, a licensee may have his license placed in an inactive status for an indefinite period of time. A licensee whose license is in an inactive status may not practice nursing. However, such a licensee does not have to comply with the continuing education standards of Section 2811.5.

§ 2736. Qualifications generally

(a) An applicant for licensure as a registered nurse shall comply with each of the following:

(1) Have completed such general preliminary education requirements as shall be determined by the board.

(2) Have successfully completed the courses of instruction prescribed by the board for licensure, in a program in this state accredited by the board for training registered nurses, or have successfully completed courses of instruction in a school of nursing outside of this state which, in the opinion of the board at the time the application is filed with the Board of Registered Nursing, are equivalent to the minimum requirements of the board for licensure established for an accredited program in this state.

(3) Not be subject to denial of licensure under Section 480.

(b) An applicant who has received his or her training from a school of nursing in a country outside the United States and who has complied with the provisions of subdivision (a), or has completed training equivalent to that required by subdivision (a), shall qualify for licensure by successfully passing the examination prescribed by the board.

§ 2736.1. Training in detection and treatment of client abuse, and alcohol and chemical substance dependency

(a) The course of instruction for an applicant who matriculates on or after September 1, 1985, shall include training in the detection and treatment of alcohol and chemical substance dependency.

(b) The course of instruction for an applicant who matriculates on or after January 1, 1995, shall include training in the detection and treatment of client abuse, including, but not limited to, spousal or partner abuse. The requirement for coursework in spousal or partner abuse detection and treatment shall be satisfied by, and the board shall accept in satisfaction of the requirement, a certification from the chief academic officer of the educational institution from which the applicant graduated that the required coursework is included within the institution's required curriculum for graduation.

§ 2736.5. Qualifications of persons serving in medical corps of armed forces; Records and reports

(a) Any person who has served on active duty in the medical corps of any of the armed forces of the United States and who has successfully completed the course of instruction required to qualify him for rating as a medical service technician— independent duty, or other equivalent rating in his particular branch of the armed forces, and whose service in the armed forces has been under honorable conditions, may submit the record of such training to the board for evaluation.

(b) If such person meets the qualifications of paragraphs (1) and (3) of subdivision (a) of Section 2736, and if the board determines that his education and experience would give reasonable assurance of competence to practice as a registered nurse in this state, he shall be granted a license upon passing the standard examination for such licensure.

(c) The board shall, by regulation, establish criteria for evaluating the education and experience of applicants under this section.

(d) The board shall maintain records of the following categories of applicants under this section:

(1) Applicants who are rejected for examination, and the areas of such applicants' preparation which are the causes of rejection.

(2) Applicants who are qualified by their military education and experience alone to take the examination, and the results of their examinations.

(3) Applicants who are qualified to take the examination by their military education and experience plus supplementary education, and the results of their examinations.

(e) The board shall attempt to contact by mail or other means individuals meeting the requirements of subdivision (a) who have been or will be discharged or separated from the armed forces of the United States, in order to inform them of the application procedure provided by this section. The board may enter into an agreement with the federal government in order to secure the names and addresses of such individuals.

§ 2736.6. Eligibility of vocational nurse to take examination for licensure as registered nurse

The board shall determine by regulation the additional preparation in nursing, in a school approved by the board, which is required for a vocational nurse, licensed under Chapter 6.5 (commencing with Section 2840) of this division, to be eligible to take the examination for licensure under this chapter as a registered nurse. The board shall not require more than 30 units in nursing and related science subjects to satisfy such preparation.

§ 2737. Application fee

An applicant for a license authorizing him to practice nursing in this State under this chapter, upon the filing of his application shall pay the fee required by this chapter.

§ 2738. Holding of examinations

The board shall hold not less than two examinations each year at such times and places as the board may determine.

§ 2740. Conduct of examinations; Finality of decisions

Examinations shall be written, but in the discretion of the board may be supplemented by an oral or practical examination in such subjects as the board determines. All examinations shall be conducted by such persons and in such manner and under such rules and regulations as the board may prescribe.

The board shall finally pass or reject all applicants. Its actions shall be final and conclusive and not subject to review by any court or other authority.

§ 2741. Reexamination

An application for reexamination shall be accompanied by the fees prescribed by this chapter.

§ 2742. Issuance of license

The board shall issue a license to each applicant who passes the examination and meets all other licensing requirements. The form of the license shall be determined in accordance with Section 164.
