

Huddle Message From the Sepsis Champions

Friendly reminder that sepsis screening should be done at the following times:

1. During handoff report with oncoming RN.
Document "Verified with 2nd RN name" in the comments section
2. Within 2 hrs of every admission/transfer (regardless of when sepsis screening was last performed).
3. Any change of condition with patient.

If screening is positive, enter orders via Severe Sepsis/Septic Shock Nurse Protocol:

Severe Sepsis/Septic Shock Nurse Protocol

Use "Per Protocol: No Cosign Required" order mode when initiating this protocol.

For any questions, please approach your unit sepsis champion!
