David Geffen
School of Medicine

The Department of Radiation Oncology is excited to announce that we will be offering the ***Diversity in Medicine – Visiting Student Elective Stipend***. This opportunity was created in partnership with UCLA Department of Radiation Oncology and Department of Radiation Oncology EDI committee, to serve as a recruitment tool for UCLA Radiation Oncology residency programs. The \$2500 stipend opportunity supports travel and lodging expenses to four **4th year medical students** who self-identify as underrepresented in medicine and/or those who have suffered from socioeconomic disadvantages.

The AAMC defines *underrepresented* as "those racial and ethnic populations that are underrepresented in the medical profession relative to their numbers in the general population."

Below are the student expectations:

- Complete application through VSAS and be accepted for the elective experience.
- Complete and submit secondary stipend application with appropriate forms.
- Meet criteria listed on the secondary application.
- Self-identify as underrepresented in medicine or communicate socioeconomic disadvantages.

All secondary applications must be submitted to Uclaradoncedu@mednet.ucla.edu . If you have any questions, please feel free to contact Liane Nash at Uclaradoncedu@mednet.ucla.edu or 310-267-5575.
