

Cerebral Palsy Research Opportunity!

Do you or your child have cerebral palsy?

The UCLA Center for Cerebral Palsy is currently recruiting volunteers diagnosed with spastic cerebral palsy to participate in research evaluating brain function.

Eligible participants will receive study-related electroencephalography (EEG) test.

Qualified Participants Must:

- Confirmed diagnosis of spastic diplegic cerebral palsy
- 2-12 years old
- English or Spanish speaking
- MRI of the brain demonstrating periventricular leukomalacia (PVL)
