## Advances and Controversies in Surgical Management of Urologic Cancers with Live Surgery Broadcast

### COURSE DESCRIPTION

This course will feature didactic lectures on key and evolving issues in the surgical management of genitourinary malignancies along with a broadcast of live surgical cases emphasizing demonstration of critical maneuvers.

### TARGET AUDIENCE

Urologists who see and counsel patients with genitourinary malignancies, as well as medical oncologists and primary care providers who desire a deeper understanding of the current issues in genitourinary cancers.

### LEARNING OBJECTIVES

- To understand the recent trends in epidemiology and practice patterns for patients with non-metastatic genitourinary malignancies
- To understand the standard of care for management of patients with non-metastatic genitourinary malignancies in light of the latest evidence
- To understand the optimal integration of minimally invasive surgical techniques in the management of patients with genitourinary malignancies

Disclosure Statement

The FDA has issued a concept paper that classifies commercial support of scientific and educational programs as promotional unless it can be affirmed that the program is “truly independent” and free of commercial influence. In addition to independence, the FDA requires that non-promotional, commercially supported education be objective, balanced and scientifically rigorous. The policy further states that all potential conflicts of interest of the CME staff and faculty be fully disclosed to the program’s participants. In addition, Accreditation Council for Continuing Medical Education policy now mandates that the sponsor adequately manage all identified potential conflicts of interest prior to the program. We, at UCLA, fully endorse the letter and spirit of these concepts.
