We look forward to seeing you!

Thank you for your continued interest in and support of the Ahmanson/UCLA Adult Congenital Heart Disease Center. Please take a moment to catch up on some recent center updates and accomplishments.

- **Jamil Aboulhosn, M.D.**, co-authored interventional cardiology training guidelines for the American College of Cardiology that were published in February. He also edited and co-authored with Ariane J. Marelli, M.D., M.P.H., the 7th edition of Perloff's *Clinical Recognition of Congenital Heart Disease*. The Adult Congenital Heart Association presented Dr. Aboulhosn with the Amy Verstackpen Leadership Award at its annual meeting for his commitment and achievements in the field of ACHD.
- **Leigh Reardon, M.D.**, an international leader on LGBTQ issues, gave seminal talks at the 32nd Annual International Symposium on ACHD and at the American College of Cardiology's March 2023 Scientific Session. He has also been invited to talk on transgender health in cardiology at the 8th World Congress of Pediatric Cardiology and Cardiac Surgery.
- In recognition of her education leadership, **Jeannette P. Lin, M.D.**, was asked to represent the field of ACHD on the Accreditation Council for Graduate Medical Education.
- **Gentian Lluri, M.D., Ph.D.**, led accreditation of the UCLA ACHD echocardiography program.
- **Jeremy P. Moore, M.D.**, became chairperson of the Pediatric and Congenital Electrophysiology Society/International Society for Adult Congenital Heart Disease committee for electrophysiology research.
- **David Highfill, M.S.W., LCSW**, a critical team member, continues to counsel patients and leads group sessions for pre- and post-organ transplant recipients.
