# UCLA Family Medicine Grand Rounds

Advancing Artificial Intelligence and Machine Learning in Primary Care

TIMOTHY TSAI, DO MMCI

Dr. Timothy Tsai is a board-certified family medicine physician and clinical informaticist at Stanford University School of Medicine within the Division of Primary Care and Population Health and Associate Medical Director of the Healthcare AI Applied Research Team (HEA3RT).

With a foundation in digital health and a Master of Management in Clinical Informatics from Duke University, he focuses on optimizing clinician workflows and patient care. His research interests are integrating technology to expedite communication, streamlining documentation, and enhancing patient-provider interactions.

He has presented research at prominent medical conferences, developed educational resources, and co-authored a textbook chapter on the future of health informatics, showcasing his commitment to advancing healthcare through a multidisciplinary approach.
