

The Homeless Healthcare Collaborative launched in January 2022 to offer trauma-informed primary and urgent care services to people experiencing homelessness. Our mission is to promote greater health equity and improved clinical outcomes.

Care We Provide:

Our team offers a wide range of treatments and support 7 days a week, including:

Medical screenings

Preventive care and vaccinations

Whole family primary care

Psychiatric care and mental health services

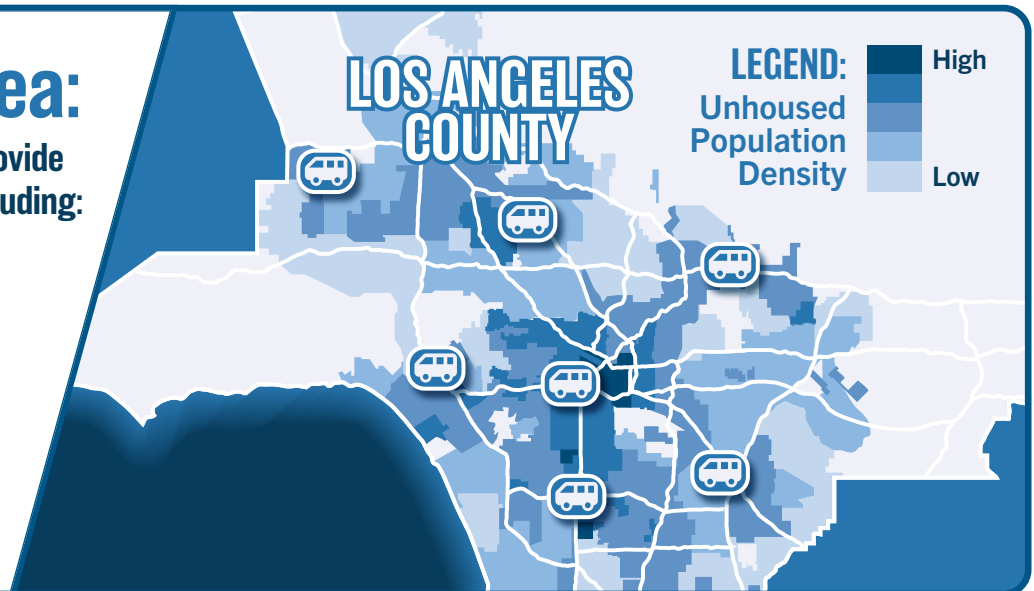

Referrals to housing and social services

Our Service Area:

Our community-based teams provide care in a variety of settings, including:

- Streets
- Encampments
- Shelters
- Interim housing sites
- Access events
- And, more

In our first year, we:

Completed over
9,000
patient encounters

Delivered over
2,300
medical and psychiatric evaluations

Dispensed over
1,500
medications directly to patients

We've seen:

7% reduction in unhooded patients visiting the UCLA Health emergency departments

32% reduction in repeat emergency department visits by high-risk patients seen by our team
