

# Unlock Deeper Biological Insights with Illumina Connected Multiomics

Presented by  
UCLA TCGB/JCCC GSR

February 20, 2026  
9:00am-12:00pm

Join us for an interactive workshop and discover Illumina Connected Multiomics, a powerful, fully integrated platform for seamless multiomic and multimodal analysis. Explore intuitive workflows, rich visualizations, and advanced analytics that bring together single-cell, proteomics, spatial, and more to unlock deeper biological insights.

## Speakers:

- **Xinmin Li** | TCGB Director
- **Laurel Mastro** | Senior Staff Software Technical Product Manager
- **Xiaowen Wang** | Senior Staff Bioinformatics Application Scientist
