

Referral to GI Motility Orders

The following Referral to GI Motility Orders are available in CareConnect:

- GI Endoscopy Orders
- Referral to GI Motility – Esophageal Function Testing
- Referral to GI Motility – Anorectal Function Testing
- Referral to GI Motility – H. Pylori Breath Testing
- Referral to GI Motility - Hormone Stimulation Testing
- Referral to GI Motility – Hydrogen Breath Testing
- Referral to GI Motility – Transit and Motility Testing (SmartPill)

Referral to GI Motility Orders

GI Endoscopy Orders (This order should only be placed by the GI Department):

GI Endoscopy Procedures

 Accept
 Cancel

Class: **Ancillary Performed** External

Referral: Override restrictions

To dept:

To dept spec: **Medical Procedure Unit** Medicine, Gastroenterology

Reason: **Specialty Services Required**

Priority:

of visits:

Requested Order Colonoscopy **EGD** Sigmoidoscopy Anoscopy Enteroscopy Pouchoscopy

Ileoscopy ERCP (For external only)

EGD WITH OPTIONAL: (Bravo studies must be performed during an EGD. Wire-based pH studies must be performed following esophageal manometry.)

EGD with rubber band ligation of varices (43244) EGD with coagulation (43255)

EGD with Esophageal Manometry (91010, 91037)

EGD with Esophageal Manometry w/food (91010, 91037)

EGD with 48-hr Bravo OFF acid suppression (91035)

EGD with 48-hr Bravo ON acid suppression (91035) EGD with 96-hr Bravo (91035)

EGD with 24-hr pH OFF acid suppression (91034) EGD with 24-hr pH ON acid suppression (91034)

EGD with 24-hr pH-impedance OFF acid suppression (91038)

EGD with 24-hr pH-impedance ON acid suppression (91038)

****BRAVO STUDIES MUST NOT BE PERFORMED ON PATIENTS WITH ANY OF THE FOLLOWING**:***COAGULOPATHY, *ESOPHAGEAL VARICES, STRICTURE, OR ULCER, *ESOPHAGEAL OR BOWEL OBSTRUCTION, *PACEMAKER OR IMPLANTABLE DEFIBRILLATOR *NICKEL ALLERGY

PREP **No prep**

Procedure Time (+) 15 (+) 30

Sedation **MAC**

Indication for MAC

Special Med Instructions- Blood thinners (discontinue)

Arixtra/Fondaparinux (36 hrs) Brillinta/Ticagrelor (5 days) Coumadin/Warfarin (5 days)

Referral to GI Motility-Esophageal Function Testing

If pH Testing is selected, you will now see a required hard stop question **Is there an esophageal manometry report in CareConnect?** If the response is No and a manometry order is not also selected, there will be a validation pop-up when attempting to sign advising that the order cannot be signed because you must select Esophageal Manometry within the order.

Order validation:

Referral to GI Motility – Anorectal Function Testing:

Referral to GI Motility - Anorectal Function Testing

Status: Normal Standing Future

Priority: Routine Routine STAT

Class: Ancillary Performed External

Anorectal Function: Anorectal Manometry (91120, 91122) Anorectal Biofeedback (90912, 90913)

Comments: [Rich text editor]

Class: Ancillary Pe Ancillary Performed External

Sedation/Anesthesia Option

Moderate/Conscious Sedation No Sedation Upper Anesthesia (00731)

Lower Anesthesia (00811)

Endoscopic Ultrasound with possible FNA

Upper (43239, 43259, 43242) Lower (45330, 45331, 45341, 45342, 76872)

add Celiac Plexus block (43253)

EGD

with Biopsy (43239) add Dilation (43249) add Pneumatic Dilation (43233)

add Stent (43266) add EMR (Upper 43254)

Add Motility? Yes No

EGD WITH OPTIONAL: (Bravo studies must be performed during an EGD. Wire-based pH studies must be performed following esophageal manometry.)

EGD with rubber band ligation of varices (43244) EGD with coagulation (43255)

EGD with Esophageal Manometry (91010, 91037)

EGD with Esophageal Manometry w/food (91010, 91037)

EGD with 48-hr Bravo OFF acid suppression (91035)

EGD with 48-hr Bravo ON acid suppression (91035) EGD with 96-hr Bravo (92035)

EGD with 24-hr pH OFF acid suppression (91034) EGD with 24-hr pH ON acid suppression (91034)

EGD with 24-hr pH-impedance OFF acid suppression (91038)

EGD with 24-hr pH-impedance ON acid suppression (91038)

ERCP (Requires anesthesia (00732))

ERCP (00732, 43260) add Biopsy (43261) add Balloon dilation (43277)

add Stone removal (43265) add Stent placement (43274)

add Stent change/removal (43275, 73276) add Sphincterotomy(43262, 43276, 43277)

add Cholangioscopy/Spyglass (43273, 43265)

Endoscopy with Ablation

RF Ablation (43229, 43270) Cryo Ablation (43229, 43270)

Enteroscopy (Requires anesthesia 00731 and/or 00811)

Upper (44361 and 00731) Lower (44361 and 00811)

Colonoscopy

with Biopsy (45378, 45380, 45385) add Stent (45389, 74360)

add Polypectomy/EMR (45385, 45390)

Flex-Sig

Flex-Sig & Bx (45330, 45331) Flex-Sig & EMR (45330, 45338)

Flex-Sig & Stent (45330, 45389, 74360)

Confocal Laser

Esoph/Gastric/SmBwl (43239, 43206, 43252) Pancreatic (43261, 43274, 48999)
