

Health

Heartfelt comments that were made about Dr. Andrea McGonigle on the 2019 UCLA Exceptional Physician nomination form:

“Dr. McGonigle acts with the utmost integrity and pursues her work in an honest and ethical manner. She takes responsibility for her actions and considers how her actions affect others. She holds herself accountable and follows not just the letter of health care regulations and work rules, but also their spirit. Dr. McGonigle shows a genuine sympathy for suffering and hardship that staff and patients are going through. Her words are kind and come from the heart. She regularly leaves the lab to visit patients and families in person, and is able to quickly establish a compassionate rapport with them.”
