

If you've tested positive for COVID-19, please postpone any patient visitation until 10 days have passed. If you are experiencing any COVID-19 symptoms, please **do not visit**.

We strongly recommend that all visitors are vaccinated and have received a booster.

If you are visiting for multiple consecutive days, proof of a negative COVID-19 test is only required every third day. This means that testing is only required on day 1, day 4, day 7, etc.

Patient Population	Visitors/Hours/Duration	Notes
Adult patients (no COVID-19) including semi-private rooms	2 healthy visitors at a time. Must be either fully vaccinated or have proof of a negative test result within 2 days for a PCR test or 1 day for an antigen test.
