

ACHA Webinars Presents:

Advocacy Update 2015

Thursday, February 19, 2015, 7 p.m. – 8 p.m. EST

Presenter:

Danielle M. Stephens, ACHA Director of Programs

About the Webinar

Make your voice heard! Whether you've done this before, or you want to learn more about our advocacy program, join us for this webinar. You will learn about our 2014 accomplishments and get an update on our priorities for 2015. Plus, learn how you can get involved, whether visiting your lawmakers with us in Washington, D.C., on February 26 or from the comfort of your own home. If you are planning on attending the Legislative Conference, this is an excellent opportunity to learn more about our issues and ask questions about this exciting event. We will also be discussing your opportunity to help ACHA and the CHD community advocate on a year-round basis with some exiting examples and ideas for you to do at home.

About the Presenter

Danielle M. Stephens, Director of Programs, has more than 11 years of nonprofit program-related and volunteer management experience. In her role she is responsible for program design and management; professional membership; research, evaluation and quality assurance; and leadership and team management. Before joining ACHA she was the Program Director for the Arthritis Foundation where she significantly grew the sustainable program offerings, diversification of funding streams, advocacy initiatives and dedicated volunteer pool. Danielle is also experienced in grant writing, advocacy, program evaluation and development, and program management.

About the Adult Congenital Heart Association

The mission of the Adult Congenital Heart Association (ACHA) is to improve and extend the lives of the millions born with heart defects through education, advocacy and the promotion of research. If you would like to find out more about our programming, visit our website, www.achaheart.org. To support ACHA's mission to improve and prolong the lives of heart defect survivors, you can make a donation on our website.

This webinar was made possible in part by unrestricted educational grants from Actelion Pharmaceuticals US, Inc., Gilead Sciences, and St. Jude Medical Foundation.
