ABOUT VISIONARY BALL

Visionary Ball

Visionary Ball is a celebration of life, a tribute to courage and a recognition of achievement. This premier event unites more than 500 grateful patients, philanthropists, physicians, business leaders and community partners in support of the UCLA Department of Neurosurgery.

Visionary Ball is instrumental in advancing the department's mission to deliver world-class patient care, conduct groundbreaking research and train the next generation of neurosurgical leaders. Proceeds from the event provide crucial funding for research tackling some of the most complex neurological challenges of our time.

This year's gathering is especially meaningful as we commemorate the 20th anniversary of Visionary Ball and reflect on two decades of extraordinary impact. Since its inception, the fundraiser has played a vital role in pushing the boundaries of discovery in the field of neurosurgery. As we reach this milestone, we look forward to the next 20 years of innovation and progress.
