

Hepatobiliary Pathology Grossing Guidelines

Specimen Type: WEDGE BIOPSY

Gross Template:

MMODAL COMMAND: "INSERT LIVER WEDGE"

It consists of a partial hepatectomy weighing [***] grams, and measuring [*measure in three dimensions****] cm. The capsule is [*red-tan, smooth, diffusely nodular****]. The hepatic resection surface measures [*** x ***] cm.

The specimen is serially sectioned to reveal a [*measure mass in three dimensions, describe color, shape, and consistency****]. The mass is located [***] cm from the capsule, and [***] cm from the parenchymal resection margin. The remaining uninvolved parenchyma is [*firm, red-tan, green-tan, homogeneous, fibrotic, nodular* ***]. The specimen is entirely submitted in cassettes [***].

INK KEY:

Black parenchymal resection margin
Blue capsule overlying tumor

[*insert cassette summary*]

Cassette Submission:

All tissue submitted

- Submit entirely
- Add the appropriate histology order
