

## Genitourinary Grossing Guidelines

**Specimen Type:** CALCULI

**Procedure:**

1. Measure stone(s) and count, if possible.
2. Describe color and shape.
3. Send for chemical analysis, if requested by clinician.

**Gross Template:**

**MMODAL Command:** "INSERT CALCULI"

It consists of [*number\*\*\**], [*color, shape, bosselated/spherical/multifaceted\*\*\**] calculi measuring [*measure in three dimensions\*\*\**] cm in aggregate, ranging from [*smallest to largest\*\*\**] cm in greatest dimension. A gross photograph is taken. This specimen is for gross examination only.

**[Please ensure that if this is a GU calculus that the clinical team did not mean to order a "stone analysis"\*\*\*]**

**Cassette Submission:** Gross only or submitted for chemical analysis (if requested by clinician).
