Webinars Presents:

Care of the Adult with Eisenmenger Syndrome

Monday, April 9, 2018, 7 p.m. – 8 p.m. EDT

Presenter: Naser Ammash, MD

About the Webinar

Are you an adult with congenital heart disease who has a large unrepaired hole in your heart? Are you cyanotic or blue? Do you have swollen or rounded fingernails or toenails? Have you been told you have high blood pressure in your lungs and/or low oxygen levels? If you have any of these symptoms or have been told you have Eisenmenger Syndrome, you don't want to miss this webinar. Dr. Naser Ammash, noted ACHD expert, will talk about recent advances in managing Eisenmenger syndrome and how they have improved outcomes.

About the Presenter

Dr. Naser Ammash is a Professor of Medicine, Mayo Clinic College of Medicine, and a Consultant in Cardiovascular Department at Mayo Clinic. He is Board Certified in Internal Medicine and Cardiovascular Diseases and has completed special fellowships in Echocardiography and Adult Congenital Heart Disease. He has been taking care of ACHD patients since 1995. Dr. Ammash is the former co-director of the Echocardiography Laboratory at Mayo Clinic with special interests in congenital cardiology, as well as interventional, and intraoperative echocardiography. His main clinical interests are the care of the adults with congenital heart disease, diseases of the aorta, as well as those with heart disease and pregnancy. Dr. Ammash currently serves on the American Board of Internal Medicine (ABIM) test writing committee for the Adult Congenital Heart Disease ABIM examination and enjoys providing continuing education in his fields of interests. He is an emeritus member of the ACHA Medical Advisory Board.

About the Adult Congenital Heart Association

The Adult Congenital Heart Association (ACHA) is a national not-for-profit organization dedicated to improving the quality of life and extending the lives of adults with congenital heart disease (CHD). ACHA serves and supports the more than one million adults with CHD, their families and the medical community—working with them to address the unmet needs of the long-term survivors of congenital heart defects through education, outreach, advocacy, and promotion of ACHD research. For more information about ACHA, contact (888) 921-ACHA or visit www.achaheart.org.

This webinar is made possible in part by unrestricted educational grants from Actelion Pharmaceuticals US, Gilead Sciences, Inc., and St. Jude Medical Foundation.
