DAVID GEFFEN SCHOOL OF MEDICINE at **UCLA**

UCLA State-of-the-Art Urology

This course explores the most challenging management problems facing the practicing urologist. Distinguished faculty present current information and techniques in urologic oncology (prostate, bladder, kidney), male and female voiding dysfunction, incontinence, urinary tract infections, BPH surgical therapies, neurogenic bladder, mini-perc for kidney stones, kidney stone prevention, disposable scopes, androgen deficiency, prevention and management of penile prosthesis complications, prostate cancer focal and radiation therapy, perineal prostate biopsy, active surveillance, genetic testing, advanced prostate cancer therapy, robotic surgery, BCG refractory bladder cancer, upper tract TCCA, renal tumors, pediatric urology, practice management, GU dermatology, and trauma. The conference emphasizes interaction between participants and faculty and allows ample time for case presentations and group discussions, ensuring an outstanding educational experience for attendees.

At the completion of this program, participants should be better able to:

- Utilize perineal biopsy for prostate cancer diagnosis and active surveillance
- Utilize molecular markers for personalizing prostate cancer care
- Counsel patients on focal therapy for prostate cancer
- Utilize PSMA imaging for managing patients with prostate cancer
- Improve quality of life in men on androgen deprivation therapy
- Manage bladder cancer refractory to BCG
- Manage patients with upper tract urothelial cancer
- Manage the small renal mass
- Manage GU implications of menopause and hormone replacement therapy
- Manage male and female voiding dysfunction
- Utilize urethral bulking agents for incontinence
- Apply the new guidelines for neurogenic bladder
- Utilize mini-perc and ESWL for kidney stones
- Prevent kidney stones
- Utilize disposable scopes in urology
- Manage testosterone deficiency
- Prevent and treat penile prosthesis complications
- Understand the therapies for advanced prostate cancer and genetic testing
- Manage recurrent UTI's in women
- Manage common pediatric urology problems
- Manage dermatology problems in urology
- Apply new GU trauma guidelines
- Determine the optimal surgical therapy for patients with BPH

A few days before the meeting you will be emailed a link and a password to download the individual speaker handouts.

Disclosure

The FDA has issued a concept paper that classifies the commercial support of scientific and educational programs as promotional unless it can be affirmed that the program is "truly independent" and free of commercial influence. Along with independence, the FDA requires that non-promotional, commercially supported education be objective, balanced, and scientifically rigorous. The policy further states that all potential conflicts of interest of the CME staff and faculty be fully disclosed to the program's participants. In addition, Accreditation Council for Continuing Medical Education policy mandates that the sponsor adequately manage all identified potential conflicts of interest prior to the program. We at UCLA fully endorse the letter and spirit of these concepts.

The Department of Urology is a California Board of Nursing approved provider (#8888).
