

Planning for a Healthy Home, Body, and Baby

Offer a FREE workshop or training in English or Spanish for your staff, clients, patients, and/or other women you serve!

COMMUNITY WORKSHOP

The one-hour workshop teaches women how to avoid exposure to chemicals and other harmful substances at their home and work place so they can plan for a healthy pregnancy and baby.

STAFF TRAINING

Our two-hour long staff training offers more in-depth education and is geared towards those who will teach the program to others or use the information in their health education work.

For more information or to host a workshop or training, please contact:
