

# What should I do if I think I have coronavirus (COVID-19)?

**If you have symptoms like fever, new cough or difficulty breathing, contact your doctor by phone before coming into a clinic or hospital.**

**Fever**

**Cough**

**Difficulty breathing**

- Most people with coronavirus (COVID-19) will get better without the need for hospitalization.
- Separate yourself from other people in your home. Do not go to work, school, or public areas and avoid public transportation.
- Treatment for coronavirus (COVID-19) includes supportive care, like taking fluids, rest and medications to help relieve symptoms.
