

Employment Questionnaire

We are currently offering COVID-19 vaccination appointments to all health care workers and invited patients who are 65 and older. Because vaccine supply is still limited, state and local public health authorities have determined the next groups eligible to receive the COVID-19 vaccine will include people who work in certain essential industries. You can find more information on essential industries on the state website (<https://covid19.ca.gov/essential-workforce/>) and additional information on education and childcare settings on the department of public health website (<https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/VaccineAllocationGuidelines.aspx>).

To help us ensure patients are offered the vaccine in the appropriate timeline, we're asking that you answer one question related to your current employment situation.

Please note that employment verification will be required when you come in for your vaccination.

Access the Employment Questionnaire from myUCLAhealth Site

1. From the home page, click the "here" link.
