

COVID-19 VACCINES: UNDERSTANDING THE FACTS

Vaccines save 2 to 3 million lives each year, and are one of the greatest advances in medicine. With the COVID-19 vaccines promising to finally end the pandemic, UCLA doctors Jaime Deville del Campo and David Goodman Meza will present relevant information about the vaccines and answer common questions. The goal of the event is to help you make an informed decision about vaccination for yourself and your family.

The event will be presented in Spanish. There is no cost to attend, but you must register in advance to receive the link to the Zoom session.

WHEN

April 20, 6pm
