Project Complete
Primary and Urgent Care – Century City
10250 Santa Monica Blvd. Suite 2440

The Real Estate | Planning, Design and Construction (PDC) team recently completed construction on a new Primary and Urgent Care Clinic at the Century City Mall located at 10250 Santa Monica Blvd. in Suite 2240. The 5,447 square foot facility also includes specialties such as Family Medicine, Internal Medicine and Pediatrics and is open for patient care. The design concept for the interior space incorporates cloud motifs to stimulate calmness and features high-end materials appropriate for an upscale shopping experience. New Clinic Opens in the Valley
Urology – Burbank
2625 W Alameda Ave. Suite 310

In November 2017, the Real Estate | Planning, Design and Construction team completed work on a new clinical practice located at 2625 W. Alameda Ave. in Suite 310 which now offers Urology in addition to Primary and Specialty Care. The 2,891 square foot Burbank location provides general adult urology services and specialized care including Pelvic Medicine, Reconstruction and Urologic Oncology. Scope processing is done on-site in state-of-the-art clean and soiled utility rooms with positive/negative air balance and smoke-tested, pass-through windows of the highest safety standards. The interior design includes timeless, neutral, and easily maintainable finishes and furnishings. Featured art in the suite was created by Dr. Richard Ehrlich, who practices Urology with UCLA Health.
Joining Radiology, which opened on the first floor in 2016, PDC is proud to announce the completion of the second floor tenant improvements project at 27235 Tourney Road for the Department of Medicine (DOM). The 17,699 square foot DOM clinical operation comprises Primary and Sub-Specialty Care including Internal Medicine, Blood Draw, Pediatrics, Pediatric Neurosurgery, Dermatology, ENT / Head & Neck, Oncology and Hematology and is currently open for patient care. The project included extensive intra-departmental collaboration between UCLA Health and the Department of Medicine to coordinate industry regulations and quality of care standards.

MP200 Public Area Improvements and Wayfinding Projects

Thank you for your continued patience as UCLA Health wraps up the MP200 Public Improvements Project. The renovation in common area corridors, restrooms and the lobby is in its final phase of construction. Project completion is anticipated for February 2018.

Replacement of the donor and wayfinding signage in common areas of UCLA Medical Plaza is ongoing. This project upgrades signage to reflect new interior finishes and improve the patient experience. In addition to updated building directories and suite signage, several suites will be renumbered to alleviate visitor and staff confusion. We appreciate your patience during this transition period. The anticipated timeframe for changes to go into effect is March 2018.

For inquiries regarding wayfinding and signage, please contact PDC Project Manager Leigh Meyer at lmeyer@mednet.ucla.edu

New Project?

The Real Estate | Planning, Design and Construction Department is here to help! Our team of professionals is dedicated to helping UCLA Health with renovation, space planning and building management. The mission is to provide high quality building services that support UCLA Health’s commitment to deliver leading edge patient care, education and research.
